# About Us

GetPlaques.com is an industry first, employing a creative network of design professionals along with the latest in bronze manufacturing technology.

Whether you are honoring a loved one, recognizing the achievements of an esteemed associate, or wanting a sign for your established business practice, our team is here to help you actualize your vision. From hospital dedications to University endowments, GetPlaques.com has helped customize the various sign, plaque and memorial concepts for clients all across America.

**GetPlaques.com offers:**

- Free Project Proofs and Price Quotes.
- Free project web page.
- Friendly, responsive staff that will suggest a variety of projects concepts, size and price suggestions that meet your budget and time line.
- Free Shipping anywhere in the U.S.

How can we deliver such a high quality product for a competitive price?

Other companies spend thousands of dollars each month on search engine placement, offsetting those costs by increasing your bill. Due to the innovative Internet marking plan developed by our web design associates at Luna9 Media Group, we do not spend money on search engine placement. We pass these savings onto our customers, as we do not feel you should have to pay a price to locate our business.

It is a source of great pride that our cutting edge bronze manufacturing process is done entirely in the United States. Our products stand behind the talent and dedication of American workers. We look forward to working with you.

If you need assistance with the design of your project please call us at:  
**317-833-5717**

*getplaques.com, kbronze.com et al doesn't have a 'machining department':  
Trigard Bronze, the actual manufacturer, does.*

**Custom Fire and Police Station plaques.**

Our art department creates renderings that closely resemble what can be expected in the final product. **Our machining department** can create the special cut needed for your plaque. If you have a unique idea, share it with our design team.
